

Arrow Portfolio

Alibaba Cloud China Gateway, Cloud Elastic Compute Services, Cloud Content Delivery Network, Object Storage Service, Cloud eCommerce, cloud based and managed security services and Web Hosting.

Allot DPI, Bandwidth Management, Monitor and Analytics, WAN Optimization, Security, DDos and Content Filtering.

Arista Networks Software-driven, cognitive cloud networking for large-scale datacenter and campus environments.

AvePoint Cloud Back-up, Policies & Insights for Microsoft Office 365, Cloud Management for Microsoft 365, Enterprise Risk, Compliance, & Data Protection

AWS IaaS, Storage, Database, Server Computing & Virtualization, DevOps, IoT and Data Analysis.

BitTitan Cloud Migration and Managed Service Automation.

Blancco Data erasure, sanitizing the data of all IT assets, from mobile devices to PCs and laptops, data centers, virtual machines and SSD erasure.

Carbon Black Security, Application, Endpoint Detection and Response, NG Antivirus, Streaming Prevention.

Check Point Enterprise & SMB Firewall with Security Blade (UTM HW or SW), IPS, AntiBot, DDos, Endpoint Security, Mobile Threat Emulation, Threat Extraction, VSX, Security Management.

Citrix App, Desktop and Server Virtualization, WAN Optimization, Enterprise Mobility Solutions, Data Access Management, Application Traffic Management, Application Balancing, Application Security, Application Availability and Performance, Video Conferencing.

Commvault Data & Information Management Software. A single platform to protect, manage, and access data and information.

Ctera Networks Hybrid Storage on-premise and/or on Cloud.

Cyber Guru is the first line of Cyber Security Awareness solutions designed to increase the level of security of individuals and organizations by acting effectively on the human factor.

Delinea Enable digital transformation and secure privileged access across hybrid and multi-cloud environments.

Entrust Encryption, HSM, Identity, Managed PKI Services and Cryptography.

Equinix is a global platform that securely connects businesses, providing the neutral and scalable digital infrastructure needed for growth and innovation.

Erwin Data modelling solutions & enterprise architecture tools either cloud based or on-premise with a customizable web interface for easy access.

ExaGrid provides efficient backup storage with a Tiered Backup system that combines fast recovery from a disk-cache Landing Zone and cost-effective long-term retention with deduplication, ensuring reliable performance as data grows.

F5 Application Traffic Management, Application Balancing, Application Security, Application Availability, Application Performance, Identity and Access Management, Data Center Security, Threat Prevention, Cloud Computing, SSL decryption, DDOS protection.

Forcepoint Content Security, Insider Threat Data Protection, Security for Cloud, Network Security.

Hitachi Data Systems Storage and Server, SAPHANA, Oracle, VMWARE, Hyper-V.

Huawei Networking, Storage, Security, Wifi, Server for Datacenter, IoT.

Infinidat Enterprise Data and Cloud Storage Solutions.

Infoblox Network Control, DHCP-DNS Management, DNS Firewall.

Keysight Intelligent Data Access, Networking, TAP, Packet Broker.

Libraesva Email Security Gateway (Antispam, Antivirus, Antimalware), ISP Program.

Liquid Liquid Matrix provides software-defined Composable Disaggregated Infrastructure

Microsoft Cloud and IoT solutions, Server, Virtualization, SaaS, PaaS, IaaS, Enterprise Mobility & Security, Data Analysis, Artificial Intelligence and DevOps.

NetApp Hybrid cloud data services for management of applications and data across multi-cloud and on-premises environments.

NetWitness XDR is a centralized combination of network and endpoint analysis, behavioral analysis, data science techniques and threat intelligence.

NVIDIA Graphics Processing Unit (GPU) computing for enterprise workloads in the data centre allows scalability, performance and enables deep learning and Artificial Intelligence (AI).

Opentext Cybersecurity Log Correlation, SIEM, Software Analytics, Code Review, Data Protection, File -Mail Encryption, IAM (Identity and Access Management), PAM (Privileged Account Manager).

Opswat products enable the Safe Transfer of Files and Devices To & From Secure Environments.

Oracle Database, Middleware and Integration Technology, Cloud Platform IaaS/PaaS/SaaS, HPC, Cloud At Customer, MySQL, Java, Linux, Hardware and Engineered Systems, Virtualization, Storage, Data Analysis, Artificial Intelligence and DevOps.

Paessler PRTG Network Monitoring Software. Monitoring of all IT infrastructure systems, devices and applications.

Praim Thin Client Devices and Management.

ProEsys IOT products based on the latest LORA and UltraWideBand technologies: HW/FW design, RF radio-frequency systems, mechanical design, high-tech industrialization processes, signal processing and FPGA algorithms development.

ProLion Ransomware and Insider Threat prevention platform for NetApp environments, Continuous Monitoring, Automatic Switchover for NetApp Metroclusters

PureStorage All Flash Storage, Evergreen Storage.

Quantum Tape Archiving Systems, NAS Archiving Systems, Deduplicated Backup Storage Target, StoreNext Xcellis Shared Storage, Artico Tiered Storage for Archiving Solutions.

Quest ISV specialized in Active Directory & Office 365 management and modernization which provides end-to-end support for your next Microsoft challenge: migration, management, security.

Radware Traffic Acceleration Balancing and Management, Web Application Firewall, DDoS Security.

Riverbed Application and Network Performance Management, WAN Optimization, Storage Delivery.

RSA Strong Authentication, Security Analytics, GRC, Antimalware Endpoint and Network, SIEM, Identity Access Government, SSO.

Schneider Electric offers advanced automation and energy management solutions, leveraging IoT and AI to drive digital transformation.

Skyhigh security Secure Web Gateway, Cloud Access Security Broker, Zero Trust Access Network, Cloud Data Loss Prevention, Remote Browser Isolation, cloud firewall e protezione delle applicazioni cloud-native

Splunk Operational Intelligence: make Machine Data accessible, usable and valuable to everyone.

SUSE Specialized in Enterprise Linux, Managing Kubernetes & Edge Solutions.

Supermicro offers a wide range of products including servers, storage, networking, and workstations. They provide solutions for AI, HPC, cloud, and edge computing.

Symantec Endpoint, Web & Email Security, Advanced Threat Protection, Encryption, Data Loss Prevention, User Authentication, Incident Response, Security Analytics.

BlackDuck Electronic design automation, IP and application security (AppSec)

Tenable Vulnerability Management , Web Application Scanning, Container Security, Nessus Pro.

Thales Strong Authentication (Cloud and on-premise), Encryption, HSM.

Trellix Endpoint Security, Cloud Security, Collaboration, Data and Users, Applications Security, Infrastructure Security.

Trend Micro Virtual AV, Endpoint Security, Content Security, APT Control, Threat Emulation Sandboxing, XSP Licensing Model, IPS (Tippingpoint).

Tufin Auditing, Compliance and Security Automation, Application Security Management, Security Policy Orchestrations.

Vast data Delivers a single universal data platform to support all of your applications.

VMware VMware vSphere (std, essential plus), VMware vSphere Foundation and VMware Cloud Foundation. Add-ons: vSAN, SRM Enterprise, TMC. Disaster Recovery and VMware Live Recovery.

xFusion IT computing power infrastructure , Server , HPC , HCI , Big Data.
