

NVIDIA DGX A100 LEASING SOLUTIONS

LOWER THE BARRIER TO AI-POWERED INNOVATION

To power your business transformation, you need infrastructure optimized for the unique demands of artificial intelligence (AI) that results in improved customer relationships, streamlined supply chains, and improved clinical outcomes. NVIDIA DGX™ A100 is the universal AI system, optimized and purpose-built for enterprises, offering unmatched flexibility and scalability, game-changing performance, and integrated access to AI expertise. With DGX A100 leasing solutions, you can enjoy the benefits of the world's leading AI system with a cost-effective payment solution that makes it easier than ever to get the infrastructure you need now.

FLEXIBLE PAYMENT SOLUTIONS DRIVE FASTER AI INNOVATION

DGX A100 leasing can help you bridge the gap between deploying the infrastructure you need and saving IT budget, by helping you:

- > **Stay on the Cutting Edge.** Easily update to the latest NVIDIA DGX technology and upgrade on-demand as your AI computing needs change.
- > **Reduce Upfront Costs.** Enjoy lower upfront IT costs with predictable monthly payments and increased flexibility via end-of-lease options.
- > **Easily Scale-Up.** Scale-up DGX capacity with minimal changes to monthly payments.
- > **Streamlined Payment Management.** Leverage solution bundling with a single monthly payment for all your AI infrastructure needs.

NVIDIA DGX A100: THE THIRD GENERATION OF THE WORLD'S MOST ADVANCED AI SYSTEM

NVIDIA DGX A100 is the universal system for all AI workloads, offering unprecedented compute density, performance, and flexibility in the world's first 5 petaFLOPS AI system. NVIDIA DGX A100 features the world's most advanced accelerator, the NVIDIA A100 Tensor Core GPU, enabling enterprises to consolidate training, inference, and analytics into a unified, easy-to-deploy AI infrastructure, backed by integrated access to AI-fluent experts.
